Over

90%

of families attending SNAPS saw an improvement in their child's confidence and happiness

Over

85%

of parents/carers have made connections with parents or carers in similar situations

What our families say...

“

Being able to attend SNAPS weekly has been a life saver for us. Now my children have a place to go where they are accepted and because of this, are the happiest they've been.”

“

It's a safe space for all of our family and we look forward to it each week.”

“

The SNAPS experience has blown me away... It has been one of the missing pieces my child needed to continue his development.”

“

The last relaxation session helped me loads and helped to clear my mind”

“

So brilliant and supportive in more ways than one. Wouldn't be without SNAPS, the staff are the best!”

“

My child absolutely loves hydrotherapy. The staff are so good and work really well with her needs... we see a huge improvement in how comfortable she is and her range of movement.”
